

OpsAssess™

Operational Assessment

Key to a quick start and rapid results

At Confoe we know that no two companies are the same. Every company has its own language, business processes, and management systems. To ensure that we provide the right solution, we use a structured assessment methodology, OpsAssess, to fine tune our service products to meet your specific needs.

Approach "Speed-Flexibility-Execution."

Confoe analyzes your business needs, industry environment, and core business processes. We quickly customize a solution that fits your market and your culture. Our bias for action means that results will be rapid, measurable, and repeatable.

OpsAssess is the foundation for Confoe's capability and service product delivery to our customers. It is HOW we analyze your business needs and specific "as is" conditions to ensure we build upon your strengths as we establish the structure and protocols required to revolutionize how departments, groups, and regions work together to achieve shared goals and objectives. Our structured approach and industry experience allows us to conduct the assessment with minimal impact to daily operations. Feedback from this assessment is valuable in its on right, and facilitates the development of a cohesive improvement strategy.

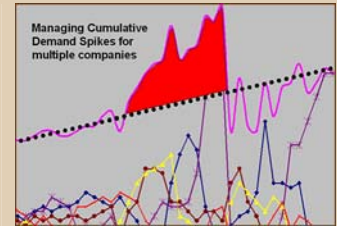

We are experts in building the strategies, processes, and operational elements to meet the challenge of the business cycle. We have implemented the methodology across Asia, Europe, and the United States in both small and large organizations.
